RE: Important Notification: Covaris Headquarters and Manufacturing Facility Relocation

To whom it may concern,

We are excited to announce that Covaris' headquarters and primary manufacturing operations are moving to a new facility around the first week of November 2026. Our new address will be:

Covaris, LLC
3 Van de Graaff Drive
Suite 103
Burlington, MA 01803

In October, please update your records to reflect this new location for all future correspondence, deliveries, and invoicing. Our phone numbers, email addresses, website and UK offices will remain unchanged.

We will communicate further specifics as construction and move dates are finalized. Please monitor our website for updates.

What this means for our operations:

- **Uninterrupted Supply:** We have carefully planned this transition in phases to ensure there is no disruption to our manufacturing schedule, product availability, or fulfillment processes.
- **Enhanced Capabilities:** This new footprint allows us to modernize and scale our production capacity and continue delivering the high-quality multiomics solutions you rely on.

We deeply value our continued partnership and are committed to making this transition as seamless as possible for your team. If you have any questions or require further clarification regarding specific purchase orders, shipping logistics, or billing, please reach out to your dedicated territory manager or our support team at quality@covaris.com.

Thank you for your ongoing support and trust in Covaris. We look forward to continuing to work with you from our new headquarters.

Regards

Hein Smit Sibinga,

Vice President, Quality Assurance and Regulatory Affairs.
