Product Insert: Centrifuge 8 microTUBE Strip V2 Adapter

Introduction
The Centrifuge 8 microTUBE Strip V2 Adapter (PN 500541) is designed for the 8 microTUBE V2 products and is compatible with the ThermoFisher™ Scientific mySPIN™ 12 mini centrifuge. There are two adapters included with PN 500541. The mySPIN 12 mini centrifuge comes with 2 rotors: one for separate centrifuge tubes and one for PCR strip tubes. This adapter works with the PCR strip tube rotor.

Covaris recommends always centrifuging the 8 microTUBE-15 AFA Bead Strip V2 products. Centrifuging the other 8 microTUBE Strip V2 products when they are used at their recommended volumes is not required.

Never centrifuge a single 8 microTUBE Strip V2. Always centrifuge two to maintain balance. Ensure the 8 microTUBE Strip V2s are fully seated in the adapter prior to spinning.
